

## **STATEMENT OF PURPOSE**

### **RS23793**

Current code provides for the purchase of fire equipment with the proceeds from a bond issue. The added verbiage to this section of code allows for local agencies to procure police equipment through a bond election and issuance as well. For example the City of Coeur d Alene is proceeding with a Public Safety Bond in May and the change to the law will allow for the purchase of both fire and police equipment.

### **FISCAL NOTE**

The change in code will have no fiscal impact to the state and will only impact local agencies of government if electors approve a local bond election.
